

# AVR320

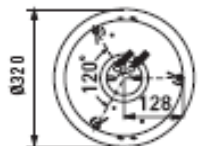

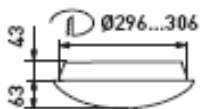

The Excel AVR320 is an all-round luminaire with an innovative solution for fast and easy installation. Luminaire housing is made of white polycarbonate and the diffuser is opal polycarbonate. For each light source type, there is a separate white-painted steel reflector plate in order to get the best light-technical performance for each solution. Together with the AVR254 and AVR400, the AVR320 build up a uniform luminaire family. AVR320 luminaires are suitable for both surface and recessed mountings.

- IP44
- PIR versions available (see PIR section)
- Emergency versions also available

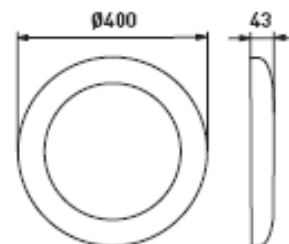

| <u>Code</u>   | <u>Lamp</u> | <u>Description</u>                      |
|---------------|-------------|---|
| AVR320.26     | 1x26W TC-D  | 26W c/w switch start gear               |
| AVR320.26E    | 1x26W TC-DE | 26W c/w high frequency gear             |
| AVR320.26DIM  | 1x26W TC-DE | 26W dimmable c/w 1-10V analogue gear    |
| AVR320.28     | 1x28W TC-DD | 28W 2D c/w switch start gear            |
| AVR320.28E    | 1x28W TC-DD | 28W 2D c/w high frequency gear          |
| AVR320.28DIM  | 1x28W TC-DD | 28W 2D dimmable c/w 1-10V analogue gear |
| AVR320.218E   | 2x18W TC-DE | 2x18W c/w high frequency gear           |
| AVR320.218DIM | 2x18W TC-DE | 2x18W dimmable c/w 1-10V gear           |
| EC320/26W3M   | 1x26W TC-DE | 1x26W Maintained emergency              |
| EC320/28W3M   | 1x28W TC-DD | 28W 2D Maintained emergency             |

The AVR320 innovative fixing system

Fix the centre plate in place.

Attach to the housing on the centre plate by rotating.

Connect the wires to the connectors.

Finally, fix the diffuser in place.

AVR 320 recessed using recessing clips PPA262
