

Helvar Digidim

Helvar develops, manufactures, and markets ballasts and lighting electronics for the luminaire industry and other customers specialising in lighting. Helvar has a long tradition as a forerunner in its field, and always utilises the latest technology to ensure that its products are of high quality, have first-class technical properties and conform to local regulations.

Helvar focuses on controllable and non-controllable electronic ballasts, lighting control products and magnetic ballasts, thus offering tailored products and solution portfolio.

Many activities require different lighting levels to create an appropriate mood, such as;

- Boardroom presentations
- Intimate settings in restaurants
- Bars and dancefloors
- Hotel reception areas etc.

The complete **lighting control** Solution

Helvar's DIGIDIM range gives you the products to fulfil any lighting control requirement.
