

Surface X ray reader

The surface X ray reader is available in white powder coated steel with Acrylic front cover in opal.

Plastic film holders grip the X-rays securely without damage.

Features rocker on/off switch and 2 x 15 Watt fluorescent daylight lamps.

Highly versatile as it can be relocated easily thanks to its 2 keyhole slots for fixing.

The XRRS can take two standard X-Rays which can be viewed individually or together by means of switching each side independently.

Supplied with High Frequency ballast as standard.
