

Excel double sided exit box

Description

The **Excel Double Sided Exit Box** is designed in a way that it provides left and right pointing legends highlighting the same exit route and which are clearly visible from all perspective approach angles.

It is made from robust materials such as sheet steel for the surrounding frame, with a powder coated white finish. The frame is also available with brass or chrome finishes. It features two flat screened exit legends made of polycarbonate and the unit also consists of a downward illumination window that highlights the exit route.

The double sided exit boxes are all available with an 8 Watt lamp and consist of a 3 cell battery giving the lamp an output of 180 lumens. It has a viewing distance of 36 metres, please refer to the human interaction diagram in data sheet 1.
