

Galatea downlight

Galatea downlight

Galatea Downlight is as suitable for local lighting as for general lighting. The blade baffle creates a balanced light distribution. The very slender and thin-shaped design makes it fit over the table at the workstation, in the conference room or in the cafeteria. Exciting lighting solutions can be designed for spacious and airy environments such as open plan offices, lobbies, and similar environments.

Facts

Luminaire:

The Galatea body is made of spun aluminium, structure-enamelled in grey or black.

Reflector/louvre:

Reflector and body of chrome colour enamelled spun aluminium
Circular sheet metal blade louvre, chrome colour enamelled.

Connection

2.5-m grey textile mains cable with an earthed plug.

Installation:

Galatea Downlight is suspended by the flexible cord, provided with a cable discharge with a hook. The hook is adjustable along the whole flexible cord. The cable discharge can be concealed by a ceiling cup, which has to be ordered separately.

Miscellaneous:

The luminaire is supplied with light source (colour 830) and a 2.5-m grey textile mains cable with an earthed plug.
On request there is a dimmed HF-ballast unit available.
