

Indy 47

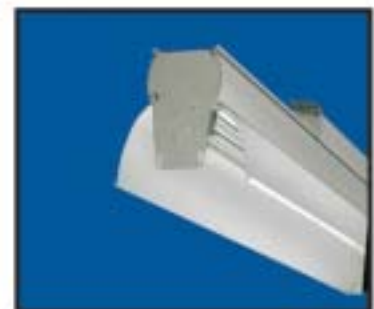

Indy 47 is an industrial luminaire for T5-tubes IP23, designed with the reflector in focus. It has an extraordinary high degree of efficiency and can be used for floor-to-ceiling heights up to 12 meters. Thanks to the range of equipment available, it is an excellent choice for industrial premises, the high bay storage facility, and supermarkets. Available with three different reflectors: wide-angle, medium-, and narrow-angle. There is an optional aluminium louvre. The connection box makes any future lighting development of the premises easy. Apply the connection box by means of a wire attachment or direct to a lighting bar. Screwless connection over one 3-pole and one 2-pole terminal block 2.5 mm² for through-wiring. Quick and easy assembly of the reflector by means of the bracket to the end-piece of the luminaire. As an optional extra there is an aluminium louvre. All the components are separately packed for a quicker assembly.
